

As I live in the United States, it is aral privilage to enjoy the feedom of choice.I have elected to pay for the sevice of XM Radio. In so doing I would be vey much against any legislation limiting XM's ability to provide the many and varied forms of Music,News and weather on their system. We as subscribers have elected to listen to this service.Please stay out of their business as long as they are of a legal means and nature.

Thank You, Ronald Shannon
